Key Historical Metrics

Outcome data compilation started November of 2007 with a goal of 90% or better

	2008	2009	2010	2011	2012	2013	2014
Number Served/Daily Interactions	79	117	159	*	50**	50	50
Patient or caregiver says Ovelle/Prairie was valuable to therapy program	100%	100%	100%	100%	100%	100%	100%
Patient or caregiver says Ovelle/Prairie helped patient work harder in therapy	100%	100%	100%	98.33%	99.65%	100%	100%
Patient or caregiver says Ovelle/Prairie helped achieve goals faster	96.8%	96.9%	97.8%	100%	100%	100%	100%
Therapist says Ovelle/Prairie was valuable to therapy program	100%	99.9%	99.4%	100%	100%	100%	100%
Therapist says Ovelle/Prairie helped patient work harder in therapy	98.7%	99.1%	99.4%	100%	100%	100%	100%
Therapist says Ovelle/Prairie helped achieve goals faster.	97.5%	98.3%	98.7%	100%	100%	100%	100%

* The actual number of patients is no longer tracked due to new system. Since 2012, the average number of daily interactions with patients is now tracked.

** Daily interactions were defined as times the Assistance Dog/s interacted with the patients for therapeutic purposes. These interactions occurred in individual and group situations and could last anywhere from a few minutes (example: assisting with a transition) to an hour or more depending on the needs of the patient.
